Incorrect Display of Illustrator EPS Files

Created
2/19/2002

Issue

Product
Creator 6.0.3

When you place an Illustrator EPS file that has a fill of “None” in a Creator 6.0.3 document, the “None” changes to “White.” The document prints correctly. This is only a display issue, which has been fixed in Creator 6.0.5.

Platforms
Mac OS 9,
Mac OS X

Solution

Update Creator 6.0.3 to version 6.0.5 or newer. You can download the free update at www.creatorsoftware.com/support/updates.shtml.
